Course Description

This is a new course and we will be examining the many interesting intersections between AI and society.

There are many topics that we can discuss and we don't have enough time to cover them all. As such, I will survey you during our first meeting to map out what topics you want to discuss.

These can include:

AI in Health and Medicine
AI in Transportation
AI in Hiring
AI in Law
AI in Education
AI in Social Media
In addition we will also examine some broad ethical aspects of AI and of course, learn what is AI.

---

**Course Goals**

To examine the Intersection between AI and Society.

---

**Grading**

Grading will be comprised of a final paper 80% and Class Participation 20%

These are subject to change.

---

**Reading List**

N/A
