Dean's Message

Dear students,

Please find attached information regarding the Arison Business Club, which includes seven clubs that the Arison School of Business has chosen to support this year, as part of our desire to promote the activities of the highest quality clubs in the university.

These clubs engage in a wide variety of business areas such as: strategy, finance, idea to startup and more, and are open to students studying at Arison School as well as to students at other schools.

We are sure that participating in these clubs will contribute vastly to advancing your professional career and strengthening your business network.
I wish you a successful school year!

Prof. Niron Hashai
Dean of the Arison School of Business.

Director of Arison Clubs

For some time now, Arison clubs have been a unique and inspiring platform for networking, learning and getting to know the business ecosystem.

The clubs offer rare opportunities to create meaningful connections that can lead to fruitful collaborations and success in the professional career of each and every one of us.

Our clubs are much more than a place for meetings and lectures; They are active and supportive communities, which allow each and every participant to develop, grow and contribute to others. During the coming year, each of the clubs will hold a wide variety of activities, workshops and lectures that will enrich the knowledge and professionalism of the club members.

I would like to thank the managers of the clubs and everyone who supports turning the clubs into a meaningful, professional and inspiring place.

Together, we will continue to build a strong, active and influential community, which will be an example and a source of inspiration for others.

Wishing us all a successful year, full of action, learning and success,

Hila Lazar.

The Strategic Consulting Club

The goal of the **Strategic Consulting Club** is to introduce students to the world of consulting. Participants will take part in a year-long program where they will meet leading consulting companies such as McKinsey, Deloitte, BCG, & Strategy, EY, TASC, and more.

Participants will learn what working in strategic consulting looks like, the companies' recruitment process, how to solve case studies, participate in the club's case competition, and also in an ivy league international case competition, in which the finalists travel to compete in the US.

The club is for students who are interested in consulting and want to learn the tools to work on high-quality case studies solutions.

We recommend participating in the club during the second year or onward as the club's content is very relevant to employment at the end of university.

The VC Club

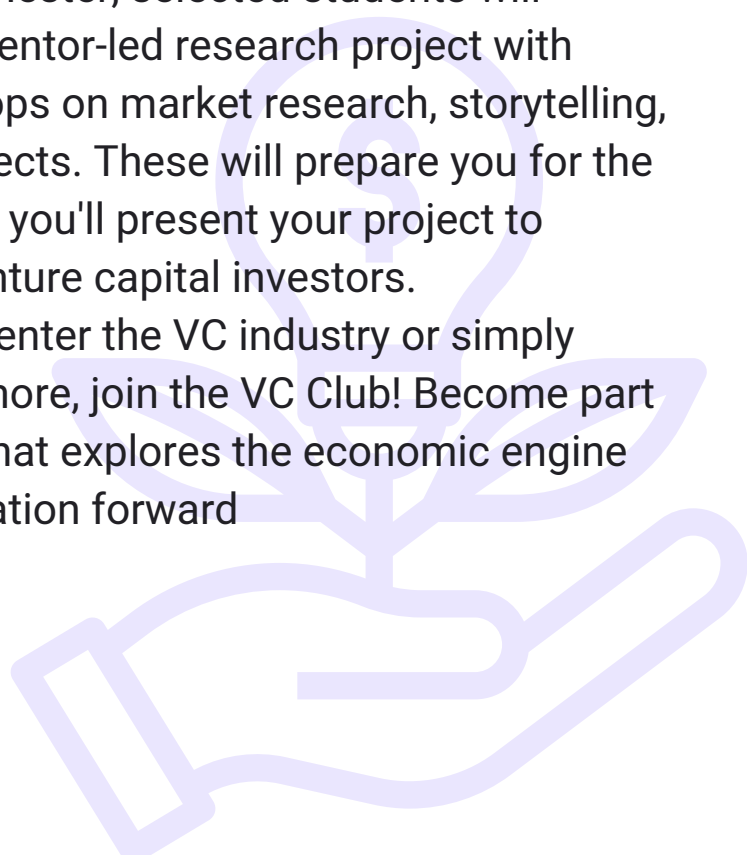

The VC club is designed to expose you to the fascinating world of investments in groundbreaking start-ups and acquire knowledge and tools to help you integrate into the industry.

In the club, you'll explore capital raising from investor and entrepreneur perspectives. The first semester introduces key concepts like VC funds, their goals, due diligence, legal aspects, and industry trends while meeting top investors in the industry.

In the second semester, selected students will participate in a mentor-led research project with practical workshops on market research, storytelling, and financial aspects. These will prepare you for the final event, where you'll present your project to leading Israeli venture capital investors.

If you're eager to enter the VC industry or simply curious to learn more, join the VC Club! Become part of a community that explores the economic engine driving Startup Nation forward

Wealth Management Club

At the **capital management club**, we will host on a weekly basis the best actors in the financial and investment industry in Israel and around the world, such as Rothschild co& , Blackrock, Phoenix Valio (??), Bloomberg Capital and more.

We will talk about a wide range of topics, starting with capital management, investments in capital market, venture capital, real estate funds. and the world of alternative investments in general.

The purpose of the club is to provide practical knowledge, deep understanding and professional connections to students who wish to lead in the financial field in the future.

The members of the club will belong to a selected community of graduates, that will continue to operate, develop and grow leaders in the financial industry in Israel and around the world.

Investment Management

The **IGI Investment Management** club is designed for students with a finance background and a solid understanding of investing in financial markets.

Each meeting begins with a discussion on current events and their potential impact on various markets, helping students stay informed and apply real-world contexts to their learning. The session then transitions to focused instruction on a specific financial topic or features insights from a guest speaker. Last year's speakers included top tier managers from Goldman Sachs, Stage One Ventures and others.

In the second semester, students participate in a stock pitch competition, allowing them to put their knowledge into practice. Additionally, club members gain access to an ever-growing network of IGI alumni.

If you are interested in deepening your understanding of financial markets IGI is the club for you !

The Fintech Club

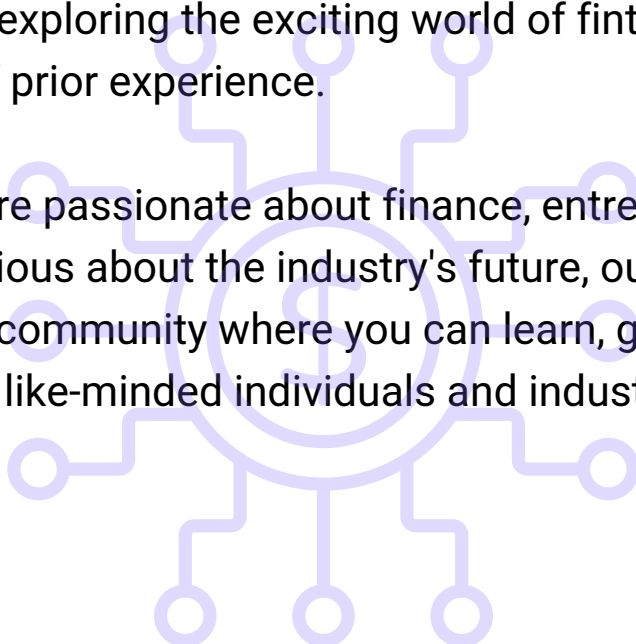

Fintech Leaders

The **Fintech Club** aims to introduce students to the rapidly evolving fintech industry and prepare the next generation of fintech professionals through collaborations with industry leaders in Israel and globally.

Our mission is to provide students with deep insights into this revolutionary sector, equipping them with practical tools and skills to foster innovation.

With the vision of "Everyone4Fintech," we welcome anyone interested in exploring the exciting world of fintech, regardless of prior experience.

Whether you're passionate about finance, entrepreneurship, or simply curious about the industry's future, our club offers a supportive community where you can learn, grow, and connect with like-minded individuals and industry experts.

TAMID Group

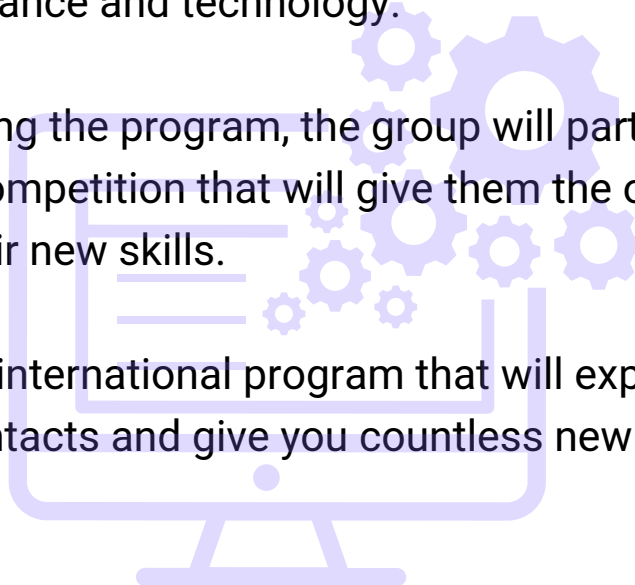

TAMID group members participate in an program that will prepares them to be helpful members of a counseling group. With an emphasis on experiential and practical learning, the educational program is not similar to sitting in a classroom and listening to a lecture.

We challenge the group members on a weekly basis as part of workshops and competitions, while they delve into a variety of topics in the areas of consulting, economics/finance and technology.

After completing the program, the group will participate in an intensive competition that will give them the opportunity to practice their new skills.

TAMID s is an international program that will expand your network of contacts and give you countless new opportunities.

Idea 2 Startup

IDEA 2 STARTUP

The **Idea 2 Startup** club was established out of the desire to provide students with essential tools and information that will contribute to the process of developing ideas, startups and other businesses.

We strive to create a supportive environment where students can learn, collaborate and grow as managers and entrepreneurs. The club will serve as a platform for meetings, enriching practical and theoretical knowledge, as well as creating connections with key figures in the industry.

Every week there will be a meeting where we will host key people in the industry from a variety of sectors. Each meeting will be unique in order to learn and enrich knowledge on a variety of topics such as: creativity development, business plan preparation, fundraising, branding and marketing and more.

The club is delivered in the Hebrew .
