GENERAL INFORMATION

Dear Students,

In the following pages you will find vital information regarding Tuition and Payment Regulations and procedures for the 2026-2027 academic year.

Please read the explanations and instructions carefully and abide by them in order to prevent unnecessary inconvenience, unpleasantness and/or financial damages.

Please note, these Regulations apply to undergraduate/graduate studies during the 2026-2027 academic year. Disregarding these Regulations will not exempt you from complying with them.

Reichman University has the right to cease the studies of students who do not fulfill their financial obligations to Reichman University.

Reichman University reserves the right to modify these Regulations without providing prior notification.

All information that is sent to students' Reichman University e-mail addresses listed in the Reichman University database are considered to have been received by the addressee.

In light of the **Protection of Privacy Law** the Reichman University may release [personal] information, including information related to tuition fees, to the student only.

Transfer of information to a student's relatives, even if they are the student's partner, parent or sibling, is permitted only with power of attorney on behalf of the student authorizing their access to the information.

We wish you a productive and successful academic year.

Sincerely,

Tuition Department

REGULATIONS FOR TUITION AND FEES

1. To secure a place as a student at Reichman University, students must pay the tuition down payment before the beginning of each academic year and within the time limit indicated on the tuition payment schedule.

Students/applicants who do not pay the down payment within the specified time limit are liable to forfeit the privilege of becoming Reichman University students or continuing their studies at Reichman University.

Please note that failure to pay the down payment does not constitute a notification of cessation of studies.

Such notification must be submitted in accordance with the Regulations outlined below.

Furthermore, receipt of notification of the down payment is not necessarily an official confirmation from Reichman University that students are entitled to continue their studies.

The balance of tuition (after the down payment is paid) and Student Union membership, health insurance can be paid with credit cards, bank transfer or cash (partial payment).

Students may pay only 10% of their annual tuition fee in cash, or NIS 6,000; the lower amount, according to the Israeli law which restricts the use of cash.

2. Reichman University may change the price of tuition and the methods of payment, as well as the criteria for setting them, at any point prior to the beginning of the academic year.
3. All payments must be submitted on time. If students need to clarify or change anything regarding the amount of their payments, they should do so before the payment is due.
4. Students interested in paying by credit card must make sure they have a sufficient credit limit to do so before making the payment. If a student's payment is not honored by a credit card company, the student will not be permitted to pay by credit card in the future.
5. **Please note that, there may be an extra charge by the bank, when wiring a payment. Students are responsible for paying any fees that may be deducted by the bank.**
6. Students who decide to cease their studies must notify both the Student Administration and the Tuition Department in writing via e-mail, immediately upon ceasing their studies and ascertain that the notification was received. **A telephone conversation is not considered official notification of cessation of studies.**

Students should carefully read the clauses on cessation of studies found in these Regulations, especially the procedure for submitting official notification of cessation of studies and the charts specifying the amount of tuition students who cease their studies must pay.

The amount is determined by the date that Reichman University receives the notification of cessation of studies.

Please note that cessation of studies do not necessarily exempt students from the obligation to pay tuition. The amount of tuition that students who cease their studies must pay depends on the date on which the written notification was received by Reichman University, as detailed below. The determining date for the calculation of tuition refunds or debits is the date on which students' written notification that they are rescinding their registration or ceasing their studies is received. Students are charged for health insurance based on the date the notification of cessation of studies is received.

7. Continuation of studies is contingent upon fulfilling the school's requirements and completing all other academic requirements. All students must arrange to pay tuition on time, but if they do not fulfill their school's requirements, they will be subject to the regulations regarding cessation of studies for academic reasons.
 - a. Students who are admitted conditionally and whose studies are ceased because they do not fulfill the conditions must pay tuition according to the chart below, **"Tuition Regulations for Students who Terminate their Studies"**.
 - b. Tuition deposits are fully refunded to students who are not admitted to Reichman University due to substandard academic achievements in the preparatory course(s).
8. The cost of a Student Union membership (for Student Union benefits, see Student Union website) for the 2026-2027 academic years is \$75. Should you decide not to be a member, please make sure to notify the Student Union by **November 25, 2026**. If the Student Union is not notified that the student doesn't want to be a member, then the Reichman University will regard the student as a member of the Student Union.
9. Full-time students paying full tuition are entitled to take up to two extra courses in addition to the courses in their program, each year during their studies, for no additional fee (includes the repeating courses).
10. Students are charged extra if their studies extend beyond the required period, if they need additional time to take the courses required for their degree. The fee is an additional 5% of the annual tuition, provided it takes one additional semester to complete the courses, and an additional 10% of the annual tuition fee if it takes two additional semesters to complete the courses. Students who must complete extra courses (except of the aforesaid in p.9) are charged for each additional course based on credit point in addition to the 5% or 10% fee described above.
11. Students who have not fulfilled all of their academic requirements within the required period of study must do so in the following year. If they do not, they must notify Reichman University that they are ceasing/freezing their studies, otherwise they will be charged a fee for extending their studies as described above.

12. The extension/overhead/repeating a year fee, does not count toward the minimum tuition required for a degree.
13. A student who is required to extend his studies beyond the required period for a degree, due to participation in the student exchange program, will not be charged for the extra semester, provided the student has the approval of the Academic Administration Office.
14. A student who has served in the Reserved Forces (Miluim) for a total of 150 days during their years of study and is required to extend their studies after completing their degree will not be charged for the extension. This is subject to confirmation from the Student Administration.
15. Students studying in joint programs, preparatory programs or additional majors/specializations, or students who take extra courses are charged an additional amount beyond the minimum tuition for a degree.
16. Students studying for two degrees or in two programs at more than one school simultaneously are charged for the actual number of hours of courses they take. This amount will not be less than the minimum tuition for a degree.

Students who switch from one school to another during the course of their studies are charged the minimum tuition for one degree plus the cost of extra courses that aren't part of the degree according to credit point, plus 10% for extending their studies beyond the required number of years. The cost of a credit point is \$550.
17. An Reichman University graduate who is interested in acquiring an additional BA degree will be granted a 12.5% discount for each year, up to a maximum of three years. An Reichman University graduate who is interested in a graduate program will be granted a 10% discount from the total tuition for the program.

Please note that, should you receive a 10% alumnus discount and a merit scholarship, the merit scholarship will be calculated after the deduction of the 10% discount.
18. To prevent misunderstanding, please note that students who receive academic exemptions for a course or courses **do not receive an exemption from paying tuition.** A reduced amount is charged only in the case of exemptions for courses taken at Reichman University.
19. Should students be entitled to a reimbursement due to a change in their program of studies, it will be paid to them by bank transfer to their bank account.

Tuition reimbursements are made within 60 days.

A credit balance in students' accounts is correct at the time of reimbursement but is not an indication of final settlement of payments for tuition, rent and health insurance for the academic year and/or degree.

Please note - Students are responsible for paying any fees charged by the bank for a reimbursement made by Reichman University.

20. Students must pay the minimum tuition for a degree even if they complete their studies in less time than the required period of study.

Student Undertaking

The Student undertakes to pay Reichman University the applicable tuition fees for a full course load, or, where approved by the relevant academic authority, the tuition fees applicable to a partial course load, together with any mandatory ancillary fees and charges, in accordance with the Tuition Regulations.

The Student's financial obligation shall remain in effect regardless of whether the Student attends or continues studies at Reichman University during the relevant academic year, unless the University approves the Student's withdrawal from studies. In such case, the Student shall be entitled to a tuition refund, if applicable, in accordance with the Tuition Regulations.

The Student acknowledges and agrees that Reichman University may, from time to time, revise tuition fees, ancillary charges, and academic regulations in accordance with its policies and applicable law.

The Student further undertakes to compensate Reichman University for any loss of, or damage to, University property, equipment, books, or other materials caused by the Student, whether acting alone or together with others.

Any payment not made by its due date shall be subject to late-payment interest and administrative fees, in accordance with the University's policies.

Failure to pay any tuition fees or other charges in full and on time may result in the suspension of the Student's studies and/or the restriction of academic or administrative services, in accordance with the University's regulations.

Receiving a degree or an entitlement to a degree from Reichman University is contingent upon paying the full cumulative minimum tuition for that degree.

The Tuition Department will confirm eligibility for the degree only after all dues have been paid to Reichman University (tuition, health insurance, dormitories, bills etc.). Students can request a transcript and a confirmation of graduation from the Academic Administration only after all payments have been made in full.

PART-TIME PROGRAMS

1. Students who are registered to study part-time in an academic program (with the approval of the appropriate academic authorities) pay a percentage of the annual tuition that is proportional to the number of courses taken, plus an overhead fee equal to 10% of the annual tuition fee. Students who pay the 10% overhead fee each year will not be charged for extending their studies beyond the required number of years.
2. Students are charged for courses for which they are registered. It is therefore recommended that students who decide not to take a specific course withdraw from it before the course begins, and receive confirmation of withdrawal from the Student Academic Administration office.
3. If the relevant academic authorities decide that a student should take a special course load that consists of both repeated and new courses, the student must pay a percentage of the annual tuition that is proportionate to the number of new courses he or she is taking, an overhead fee equal to 10% of the annual tuition fee, and a fee equal to 10% of the annual tuition for the courses which he or she is retaking. The student will not pay an amount greater than the annual tuition fee.
4. If the relevant academic authorities decide that a student cannot advance to the next year and must repeat all of the courses he or she took the previous academic year without taking any new courses, the student will be charged 10% of the annual tuition fee for the year during which he or she retakes the courses.

Scholarships/other funding

Students who are new immigrants must update the Student Authority with their academic status in order to receive the Student Authority ("Minhal") grant. Should a student receive any scholarship, grant or other form of funding, he/she must contact the Tuition Department in order to receive a revised payment plan.

Health Insurance

All Reichman University students are required to have comprehensive health insurance coverage throughout the period of their studies. Israeli residents, including new immigrants, receive health insurance for a low monthly fee in accordance with the country's health insurance legislation. International students who are not covered by Israel's compulsory health insurance legislation must purchase a health insurance policy which will accommodate all their health needs while studying at Reichman University. We have made special arrangements to insure international students who are not covered by Israel's compulsory health insurance legislation.

The plan provides comprehensive health coverage for an annual 4,970 NIS, for a student. New students are required to pay the insurance policy in advance; otherwise, it will not be issued. For continuing students, the policy is renewed automatically and must be paid in full in advance.

It is the student's responsibility to have comprehensive health insurance.

*** A student who is not interested in obtaining health insurance through Reichman University** must provide the RRIS office (rris.insurance@runi.ac.il) with a photocopy of a health insurance plan.

Be advised: carrying a valid insurance policy is mandatory.

The Tuition Regulations are applicable in full to students whose tuition is paid by other sources such as employers, scholarships, grants, etc. Students are responsible for ensuring that their tuition is paid in full and on time, even if it is being paid by another party.

Reichman University may prevent a student who has not paid/ has not settled his financial obligations (Tuition & fees payments as: health insurance, dormitory payment, etc.) to take exams. Alternatively, Reichman University may decide to do this by blocking the information station and the moodle. Once the information station and moodle are blocked on the computer, it will not be possible to receive grades, view the exam notebooks, submit appeals and receive information related to the exams. As soon as the debt is settled, the student will be entitled to review the exam and submit an appeal, even if the deadline has passed.

Please note it is the student's responsibility to make payments on time. The student must verify with the bank and the Tuition Department that payments have been received.

REGULATIONS FOR CESSATION/FREEZING OF STUDIES 1ST YEAR STUDENTS

a. Cessation of Studies Notification Procedure

Students, who pay the tuition down payment for the 2026–2027 academic years and subsequently decide not to study at Reichman University must inform the Student Academic Administration and the Tuition Department of this **in writing**. Students should either submit this statement in person, have a representative submit it for them, or send it by email/registered mail. **Students are responsible for confirming that it is received.** In addition to the statement of cessation of studies, students must submit the receipts for the payments they made toward studying at Reichman University in 2026–2027 and all of the documents they have received from Reichman University. Only after all of the instructions above are completed and students settle their tuition payments in accordance with the table below will the students' accounts with Reichman University be closed.

To prevent misunderstanding, please note that a telephone conversation is not considered official notice of cessation of studies; only a **written notice** via email or letter from the student is considered valid in this matter. **Notification of cancellation or freezing of studies, at any date, will result in the cancellation of the student's entitlement to a scholarship. The scholarship will be cancelled retroactively.**

b. Table of Tuition Obligations for students who cease their studies:

Students admitted to Reichman University, have paid the tuition down payment, and then decide not to study at Reichman University, are charged a partial tuition fee that is based on the date Reichman University is notified of this, in accordance with the procedures outlined above. The later students inform Reichman University, the larger the amount of tuition they must pay is, as can be seen in the table below.

Please note that a student's decision not to study here after enrolling and being accepted causes Reichman University many expenses, including estimating the number of students in various courses, not accepting other applicants, administrative expenses, etc.

The payments detailed below cover only part of these costs.

Please see the Tuition Regulations hereunder for students who cease their studies.

Notice of termination of studies	Payment to be charged
By July 15, 2026	No charge
July 16, 2026 - July 20, 2026	25% of the down payment
July 21, 2026 - August 24, 2026	50% of the down payment

January 15, 2027 - March 07, 2027	66% of the tuition fee
From March 08, 2027	100% tuition fee

Freezing of studies is treated as a **cessation of studies** initiated by a student and students are charged according to the Termination of Studies Table above.

Notification of cancellation or freezing of studies at any date will result in the cancellation of the student's entitlement to a scholarship or discount, which will be cancelled retroactively.

REGULATIONS FOR CESSATION OF STUDIES - FOR UNDERGRADUATE CONTINUING STUDENTS

a. Cessation of studies notification procedure

Students who continue their studies must pay the tuition down payment by August 30st, 2026.

Students who intend to cease their studies must inform the Student Academic Administration and the Tuition Department of this **in writing by email or letter**.

Students are responsible for confirming that the notification is received. Please note, not paying the down payment does not constitute a notification of cessation of studies.

In addition, if the Student Academic Administration recommends that a special program of study be designed for a student, and the student is waiting for final approval of it, and if that program of study is not designed and approved, this is not considered notification of cessation of studies. The student must follow the procedure outlined above for cessation of studies.

Students who decide to cease their studies and send notification in writing by September 29, 2026 will not be charged tuition for the 2026-2027 academic years.

To prevent misunderstanding, please note that a phone conversation is not considered an official notice of cessation of studies; only **written notice via email or letter** from the student is considered valid in this matter.

Notification of cancellation or freezing of studies, at any date, will result in the cancellation of the student's entitlement to a scholarship. The scholarship will be cancelled retroactively.

b. Table of Tuition Regulations for students who cease their studies

Students who decide not to continue their studies at Reichman University are charged a partial tuition fee that is based on the date Reichman University is notified of this, in accordance with the procedures outlined above. The later students inform Reichman University, the larger the amount of tuition they must pay, as can be seen in the table below.

Please note that a student's decision not to continue his or her studies causes Reichman University many expenses, such as: estimating the number of students in various courses; administrative expenses; etc. The payments detailed below only cover part of these costs.

Health Insurance

All Reichman University students are required to have comprehensive health insurance coverage throughout the period of their studies. Israeli residents, including new immigrants, receive health insurance for a low monthly fee in accordance with the country's health insurance legislation. International students who are not covered by Israel's compulsory health insurance legislation must purchase a health insurance policy which will accommodate all their health needs while studying at Reichman University. We have made special arrangements to insure international students who are not covered by Israel's compulsory health insurance legislation.

The plan provides comprehensive health coverage for an annual 4,970 NIS, for a student. New students are required to pay the insurance policy in advance; otherwise, it will not be issued. For continuing students, the policy is renewed automatically and must be paid in full in advance.

It is the student's responsibility to have comprehensive health insurance.

*** A student who is not interested in obtaining health insurance through Reichman University** must provide the RRIS office (rris.insurance@runi.ac.il) with a photocopy of a health insurance plan.

Be advised: carrying a valid insurance policy is mandatory.

The Tuition Regulations are applicable in full to students whose tuition is paid by other sources such as employers, scholarships, grants, etc. Students are responsible for ensuring that their tuition is paid in full and on time, even if it is being paid by another party.

Reichman University may prevent a student who has not paid/has not settled his financial obligations (Tuition & fees payments as: health insurance, dormitory payment, etc.) to take exams. Alternatively, Reichman University may decide to do this by blocking the information station and the moodle. Once the information station and moodle are blocked on the computer, it will not be possible to receive grades, view the exam notebooks, submit appeals and receive information related to the exams. As soon as the debt is settled, the student will be entitled to review the exam and submit an appeal, even if the deadline has passed.

Please note it is the student's responsibility to make payments on time. The student must verify with the bank and the Tuition Department that payments have been received.

Tuition Paid by Other Institutions

Should a student receive funding from a certain institution (such as the Student Authority, the Ministry of Defense, Masa or the National Insurance Institute) and the institution does not fulfill its commitment to cover tuition and ancillary payments, the student will be responsible for doing so.

Students whose tuition is partially paid by another Institution must contact the Tuition Department to arrange to pay the balance of their tuition.

Students are responsible for their tuition being paid on time, even if another party commits to finance their studies.

Tuition Paid with an IDF Grant

A student who is eligible for a grant from the IDF, should email to the Tuition Department, asking for a voucher with the amount he needs to borrow from his pikadon account.

A voucher will be transmitted to Misrad Habitahon site, then the student has to pay it through the address:
<https://www.hachvana.mod.gov.il/org.malan.usc.ui/Login>

Please note refunds of payments made with an IDF grant are made by a wire transfer to Misrad Habitahon.
