GLOBAL MBA PROGRAM (GMBA)
IDC Herzliya was founded with the aim of nurturing future leaders. In just twenty-five years, we have created a pioneering and innovative academic center. Our students are imbued with a commitment to excellence and original thinking. ‘The university of the future,’ as we see it, has to prepare its students for a constantly changing world by being able to innovate skillfully, to dare, and to initiate. We believe that the knowledge and tools acquired at IDC support personal and professional goal fulfillment and enable our graduates to tackle the challenges of our global reality.”

Prof. Uriel Reichman
President and Founder,
IDC Herzliya
The Global MBA program provides a solid foundation in general management and is taught from a global perspective. It is designed for executives and future business leaders. IDC leverages Israel’s status as a center of progress in high-tech, innovation, and entrepreneurship and benefits from its resources and reputation as a leader in interdisciplinary education, with strong ties to industry.

The two tracks in the program are Strategy & Business Development and Innovation & Entrepreneurship. This makes it possible for students to focus on a specific field of study while also participating in the core courses in general management. The duration of the program is eighteen months, divided into nine mini-semesters.

The faculty of the Global MBA program consists of the best lecturers from the world’s leading business schools. They are involved in the business arenas of various countries, giving students access to their expertise in the global market, as well as to the Israeli business sector’s strength in innovation, high-tech, and entrepreneurship.

Courses are taught twice a week

**PART-TIME/Modular**

Sunday 16:00 - 22:00

Friday 8:00 - 14:00
My Global MBA from IDC gave me the push and the confidence to reach the next level in my career.”

Eyal Pincu, Israel
Head of Branding and Programmatic Products, Taboola

The Global MBA program helped me gain insight into my career goals. I was very lucky to be part of an inspiring practicum at Microsoft Ventures.”

Salomé Hemmo, France
Product Growth Analytics, Facebook (California)
On the way to becoming Israel’s first private university

Over 30 research institutes at IDC
www.idc.ac.il/research-institutes

The Career Center aims to assist alumni in integrating into the professional market, as well as to assist employers who are seeking to recruit suitable candidates.

Over 27,000 graduates worldwide

The Israel Council for Higher Education granted IDC permission to confer doctoral degrees

There are 7,000 students at IDC Herzliya.

Over 2,000 of them, from over 90 different countries, study at the Raphael Recanati International School - they make up 1/3 of the IDC student body!
IDC: THE MOST INTERNATIONAL UNIVERSITY IN ISRAEL

IDC has created new, academic interdisciplinary concepts in the fields of entrepreneurship, counter-terrorism and sustainability - models that are being implemented around the world.

Over 300 Lone Soldiers studying for full degrees

IDC’s Alumni Association with over 27,000 graduates, forms a professional and social alumni community that promotes networking from different countries, and strengthens the pride and belonging to IDC and the alumni.

Ranked no. 1 in Israel for our treatment of IDF reservists
The Innovation & Entrepreneurship track is a partnership between IDC’s Media Innovation Lab (milab) and the Arison School of Business. This unique track is designed for exceptional students with professional experience, who wish to join the Israeli start-up ecosystem or improve their career choices within this vibrant community. Students will learn innovation, as well as product and business methodologies, and will have the opportunity to promote new ideas, as either entrepreneurship projects (start-up or venture ideas) or intrapreneurships (new products or businesses within an existing company). The track focuses on experiential learning, including guest lectures, informal mentorships, and company visits to leading companies (led by entrepreneurs, VCs, angel investors, product managers, inventors, and more). Students come from diverse fields, including computer science, engineering, business, law, economics, design, and social sciences, as well as biology, art, and medicine. Courses are detailed on the following page, with the main experiential courses highlighted below.

LAB: PRODUCT INNOVATION & VENTURE CREATION

In the Lab courses (3 consecutive courses) students work in teams to develop a new product and venture from the concept stage. The Lab experience is based on leading entrepreneurial methodologies, combined with UX and product techniques. Students work closely with leading mentors from the Israeli start-up community, including entrepreneurs, investors, and experts in various domains: online marketing, user experience, product management, product validation strategies, and more. Students who choose to develop hardware products, such as IoT and robots, can learn how to use milab’s advanced rapid-prototyping tools, including 3D printing, electronics prototyping and sensors, woodshop, metal shop, and biofabrication.

PRACTICUM EXPERIENCE

Students are offered a unique opportunity to experience the start-up world from within, by joining early stage start-ups, accelerators, VCs, or incubators. Students who participate in the practicum program devote 6-8 weekly hours during a 4-month period to carrying out professional projects. Former students worked at Microsoft Ventures, Sigma Labs, 8200 EISP, Gililot Capital, OurCrowd, and many start-ups. Our network of collaborators is constantly growing and we tailor opportunities for our students.

Admission to these experiential courses is subject to a screening process that takes place during the course of studies. Participation in these courses is not a requirement for completing studies in the track.
**Israel Entrepreneurship Ecosystem**
You will be taught how investors evaluate start-ups: What is more important, the team or the technology? What start-up roles are relevant for MBA students? The course includes lectures with guest VCs and angel investors, as well as company visits led by entrepreneurs and heads of accelerators.

**Data-Driven Product Management**
What is the product manager role in a data-driven start-up? What is the product life cycle? You will be taught how PMs validate new product directions. The course includes guest lectures and company visits with PMs from Google, Facebook, Taboola, start-ups, and academic data science experts.

**Business Communications**
You will be taught how to pitch to a management team or to a large audience and how to merge the art and science of interpersonal communication. Led by TED talk coaches Michael Weitz and Abigail Tenenbaum.

**UX Research for Product Innovation**
What is User Experience (UX)? You will learn how to leverage UX research methods to better understand users, and how to invent new products that provide value. You will also learn how to validate product ideas before the MVP stage. Led by Dr. Oren Zuckerman - the track's academic director, founder of IDC’s Media Innovation Lab, and an HCI (Human Computer Interface) lecturer and researcher.

**Legal and Financing Aspects of Entrepreneurship**
How are start-ups evaluated? What are the critical aspects in a founders’ agreement? You will delve into these and other issues, such as how to analyze a term sheet. Led by Dr. Ayal Shenhav - founder and managing partner of Shenhav & Co., Advocates.

**Design Thinking**
What are the methods designers use to solve problems in a creative way? Can design methodologies help a team work more creatively? You will be taught how design approaches can improve a business’s strategy. Led by Prof. Alex Padwa - an industrial designer who is the former head of the Industrial Design Department at Shenkar College of Engineering and Design.

**Systematic Creativity**
Are creative thinkers born or made? This course shows how creativity is a skill that can be taught and practiced. Led by Prof. Jacob Goldenberg - marketing professor at IDC and Columbia University and developer of the SIT (Systematic Inventive Thinking) methodology.

**Organizational Innovation**
What are the best (and worst) practices in innovation and how should one deal with the complex challenge of navigating organizational innovation culture? Led by Idit Biton - CEO of Boost Academy; Head of Innovation, Pilat; and Senior Partner and Lead Innovation Facilitator, SIT (Systematic Inventive Thinking).

A full list of all courses will be available to students on the IDC website [https://www.idc.ac.il/gmba/courses](https://www.idc.ac.il/gmba/courses)

IDC Herzliya reserves the right to cancel, alter, or expand the academic programs offered.

---

**The Innovation & Entrepreneurship track is designed for exceptional candidates from diverse backgrounds who are creative, adventurous, and interested in creating new products and services for the business market.”**
The Strategy & Business Development track prepares exceptional students for business development, strategic planning, and general management roles. In addition to the core curriculum, students in the track are taught unique analytical and planning methodologies developed by international management consulting firms, as well as the cutting edge tools required to become successful business developers. The highlight of the track is that students get to apply and experience the tools and techniques acquired throughout their MBA in an actual, real-life business development project for some of Israel’s most intriguing companies.

The Consulting Practicum may include sponsored international travel and provides genuine global collaboration and practical experience. Many of the projects are run jointly with our international partner schools, giving students access to an extensive international network, as well as the opportunity to work closely with the finest graduates of the world’s leading business schools.

Successful candidates for the Strategy & Business Development track should possess a unique blend of creativity and analytical abilities. We are looking for overachievers with great interpersonal skills and professional attitudes. Given the increased workload during the project phase, candidates should be able to commit to a flexible work schedule.

Mr. Yuval Dovev
Head, Strategy & Business Development Track

Sharon Klajman
Marketing Director

Empowering future business leaders to develop the strategies and tactics for success in tomorrow’s global marketplace
PARTIAL LIST OF COURSES

Business Analytics Foundation and Tools
Based on the “secret” methodologies of international management consulting firms, this unique course trains the student to solve complex business problems and plan business initiatives in any industry in a short time frame - probably the most critical skill for a business strategist.

Financial Statement Analysis & Valuation
Learn how to turn financial statements into the business story of the firm. Acquire a set of skills used to read and analyze financial statements as well as valuation tools. Graduates will be able to accurately reflect the operating and financing aspects of the business - forecasting earnings and cash flows - and find the secrets that are hidden behind the numbers.

Data Analysis for Business Applications
This course teaches the students to apply data analysis and data mining techniques in business initiatives. The methodologies taught are applied by most businesses that maintain a competitive edge today, from small start-ups to Amazon and Google.

Business Model Innovation
In an ever-changing world, the ability to create and adapt innovative business models is the most sought after skill from business developers. Based on the ingenious “Business Model Canvas,” students learn how to rethink the way companies generate and capture value.

A full list of all courses will be available to students on the IDC website [https://www.idc.ac.il/gmba/courses](https://www.idc.ac.il/gmba/courses)

IDC Herzliya reserves the right to cancel, alter, or expand the academic programs offered.
OVERSEAS MODULE
STUDY TRIPS TO THE USA

INNOVATION AND ENTREPRENEURSHIP TRACK

In recent years, New York City has developed into what is now called “Silicon Alley.” Hundreds of technology start-ups, mostly focused on fin-tech, Internet, and new media, are based in the city. NYC is one of the world’s most important business centers and home to some of the most prominent companies in all sectors. The Study Trip includes meeting start-up companies, entrepreneurs with an “Israeli connection,” and interesting leaders in other sectors. The trip to Silicon Valley in California, home to many of the world’s largest technology corporations and to thousands of tech start-up companies and research institutes, will include visits to the places that changed the world. The Study Trip offers students an opportunity to get a firsthand impression of current trends, new technologies, and innovative business models.

STRATEGY & BUSINESS DEVELOPMENT TRACK

The Strategy and Business Development track will travel to New York City and upstate New York to learn about the strategic challenges that executives are facing in various industries – from traditional banking and pharmaceutical companies to online commerce and ad-tech. We will meet with senior executives who will give us their perspective on their industries, and the strategic dynamics of their particular business and industry. We will also meet with the world’s leading management consulting firms, boutique investment banks, and private equity firms to explore methods of working, career paths, and the daily life of an associate in the consulting and banking industry. This is a great opportunity to learn about the forces that are shaping the strategy of massive businesses and growing start-ups. It is also an opportunity to understand the recruitment process into the international consulting and investment banking industry.
The Arison Leadership Development Program is an integral part of the MBA and Global MBA studies at the Arison School of Business. Modeled after similar programs offered at INSEAD and IMD, the Arison Leadership Development Program (ALDP) provides students with an opportunity to embark on a learning journey that is deeply personal.

The ALDP opens with Arison’s flagship leadership workshop. A core requirement for all incoming MBA and Global MBA students, this intensive three-day workshop enables students to learn about the covert dynamics of leadership and authority as they play out across all levels of organizational matrices. Facilitated by leading clinical and organizational psychologists, the retreat increases students’ awareness of their own leadership styles, and of the irrational forces that often drive organizational decision-making in the field.

THE ARISON LEADERSHIP RETREAT

The Arison Leadership Development Program is an integral part of the MBA and Global MBA studies at the Arison School of Business. Modeled after similar programs offered at INSEAD and IMD, the Arison Leadership Development Program (ALDP) provides students with an opportunity to embark on a learning journey that is deeply personal.

The ALDP opens with Arison’s flagship leadership workshop. A core requirement for all incoming MBA and Global MBA students, this intensive three-day workshop enables students to learn about the covert dynamics of leadership and authority as they play out across all levels of organizational matrices. Facilitated by leading clinical and organizational psychologists, the retreat increases students’ awareness of their own leadership styles, and of the irrational forces that often drive organizational decision-making in the field.
SELECTED FACULTY OF THE GLOBAL MBA PROGRAM

Dr. Nadine Baudot-Trajtenberg, PhD, Harvard University
Deputy Governor, Bank of Israel
Dr. Baudot-Trajtenberg has spent twenty years in the banking industry in Israel and is a leading spokesperson to the investor community on matters of finance, banking, and economic developments. Her interests are: economics of globalization; corporate communication; and the political economy of Israel. Dr. Baudot-Trajtenberg serves on the board of public corporations and public organizations.

Prof. Eitan Muller, PhD, Northwestern University
Prof. Muller has a joint appointment at the Arison School of Business and at the Stern School of Business at NYU. His research deals mainly with new product growth, social networks, and new product pricing. Prof. Muller was Professor of Marketing at the Hebrew University of Jerusalem and Tel Aviv University, and Visiting Professor of Marketing at Northwestern University, the University of Pennsylvania, and the University of Texas at Austin. He has published extensively in journals of marketing, business, and economics.

Prof. Ron Shachar, PhD, Tel Aviv University; Harvard University
Former Dean, Arison School of Business; former head of marketing, Tel Aviv University; appointment at the Yale School of Management; Visiting Professor, Duke University. Prof. Shachar's research focuses on major advertising and branding issues, as well as exploring strategic and marketing related aspects of the entertainment industries and of political campaigns.

Dr. Shiran Sivanie, PhD, University of Haifa
Dr. Shiran joined IDC after working at the Harvard Business School and at the Institute for Management Development (IMD) in Switzerland, where she facilitated leadership development programs for over fifteen years. Her work emphasizes an understanding of the unconscious processes that drive decision-making and behavior, and the covert dynamics of authority and leadership as they play out within and between teams in organizational matrices.

Dr. Ayal Shenhav, PhD, New York University
Head, GKH Hi-Tech and Venture Capital Practice
Dr. Shenhav represents many of Israel’s leading venture capital and private equity funds, advising them on their formation, tax efficient structuring, and operations. He has developed unique tax structuring that accounts for complex Israeli and international tax regimes. Dr. Shenhav has been involved in dozens of complex financing transactions, representing the investors, companies, and founders. He has also been involved in numerous M&A transactions, representing target companies and acquiring companies, investors, and more.

Prof. Jacob Goldenberg, PhD, Hebrew University of Jerusalem
Prof. Jacob Goldenberg received his PhD from the Hebrew University of Jerusalem, in a joint program of the School of Business Administration and Racah Institute of Physics. He was professor of marketing and head of the Marketing Department at Hebrew University of Jerusalem’s School of Business Administration. He is a visiting professor at the Columbia Business School and an academic trustee of the MSI. His research focuses on creativity, new product development, diffusion of innovation, complexity in market dynamics, and the effects of social networks. Prof. Goldenberg has published in leading journals and is the new editor in chief of the International Journal of Research in Marketing. In addition, he is an author of two books published by Cambridge University Press.
Dr. Yonat Zwebner, MBA, IDC; LLB, Tel Aviv University; PhD, Hebrew University of Jerusalem

Assistant Professor, Marketing, Arison School of Business, IDC

Prior to joining IDC, Dr. Zwebner was a postdoctoral research fellow at the Wharton School of the University of Pennsylvania. Her research examines social influences, such as the implications of being observed while making a consumption decision, the effects of justifying decisions, and the strong influence of a social tag. In one stream of her research, she explores how consumers are averse to being observed while making a decision, and how such an observation threatens one’s sense of autonomy and free will. In addition, she examines how exposing a reason for a prosocial decision influences that decision. In a second stream of her research, she investigates how a social tag, our given name, is so influential that it actually influences the way we look. Dr. Zwebner’s research has been published in the *Journal of Personality and Social Psychology* and the *Journal of Consumer Psychology*. Her research has won several awards, including finalist for the 2017 SESP best dissertation award.

Prof. Dan Segal, PhD, New York University

Dr. Segal has taught managerial accounting and financial accounting at top North American universities, including the University of Toronto, where he served as assistant professor. Dr. Segal has published research papers in leading accounting journals. His primary research interests include earnings management, valuation, and the effects of accounting information on economic decisions.
APPLICATION, ADMISSION, TUITION

APPLICATION PERIOD
The application period for the academic year starting autumn 2020 is **November 15, 2019 - August 31, 2020**.

The application period for students required to take MBA preparatory courses ends on **July 30, 2020**.

Due to the competitive nature of the admissions process, we recommend that applicants prepare their application well in advance of the deadlines.

ADMISSION CRITERIA
- Quantitative undergraduate degree from a recognized academic institution
- Undergraduate GPA of 80% or 3.0 and above
- Demonstrated professional experience of at least 3 years after the undergraduate degree
- Interview either on Skype or in person
- Prerequisite courses are required in Statistics, Mathematics, and Economics. Students missing these courses will be required to take preparatory courses over the summer.
- Candidates who do not have a quantitative background may be required to take the GMAT.

ONLINE APPLICATION
Complete the online application form at forms.idc.ac.il/MBA.

Please note your application must include:
- Official transcripts of previous academic undergraduate and graduate studies. Transcripts must bear the official stamp of the issuing institution. If you do not send the original, scanned photocopies of the original documents will be accepted if properly notarized.*
- Detailed CV describing professional experience
- Two letters of recommendation, preferably one from a source who can comment on academic abilities and one from a source who can comment on professional experience
- Candidates who do not have a quantitative degree must supply an official quantitative GMAT score.
- Copy of passport or identity card
- A short biography (Bio Form)
- Essay/Questionnaire

* An official, notarized English translation must be submitted for all transcripts not originally issued in English.

APPLICATION PROCESS
The application process consists of two stages:
**Stage 1** Your application will be evaluated by the Admissions Committee based on the submitted material (essays, official transcripts, etc.).
**Stage 2** Applicants who successfully pass stage 1 will be invited to a personal interview with the Admissions Committee. Applicants living outside Israel may be interviewed by phone, video conference, or by a visiting professor. The Admissions Committee will evaluate and reach decisions regarding your candidacy. You will be informed of your application status, once decided.

FEES & TUITION
- The application fee is **$100 US** (non-refundable)
- The down payment is **NIS 9,900**. Applicants must pay the fee to secure their place in the program after being accepted. Once the down payment has been received, the applicant’s place is secured and confirmed.
- The tuition fee for the entire program is **NIS 104,500**.

IDC reserves the right to change all tuition and fees rates without prior notice.

APPLY ONLINE AT
forms.idc.ac.il/MBA
FINANCIAL AID

MERIT SCHOLARSHIP
RRIS awards excellent students with merit scholarships based on their previous performance. Students do not apply for this scholarship. The Admissions Office will notify you if relevant.

FAFSA
American students are eligible for Stafford Loans as part of the Direct Loans Program. Students can register online at www.fafsa.ed.gov from October 1, 2019 until March 1, 2021. Our school code is G40703.
For further information see www.idc.ac.il/fafsa

STUDENT AUTHORITY
The Government of Israel offers financial assistance for graduate school tuition to new immigrants under the age of thirty, provided the immigrant does not already have a graduate degree from abroad and the program is recognized by the Student Authority. Students must begin their graduate studies within three years of their aliyah date (not including army service), in order to be eligible for this assistance.
www.gov.il/en/Departments/General/students_eligibility

MASA
Jewish students between the ages of 18-30 who have not previously been on a long-term program to Israel and have not made aliyah are eligible for a onetime grant from Masa towards tuition.
www.masaisrael.org

SAP (Students Assistance Programs)
Canadian students interested in loans and grants from the Canadian government can get information at www.canlearn.ca/eng/loans_grants/loans/index.shtml

Financial aid is also available through the Jewish Free Loan for the Greater Toronto area (http://jewishfreeloan.ca/j-sap) and through the Canadian Scholarship Fund (http://www.aaci.org.il).

Networking is the name of the game!
To date, there are more than 27,000 IDC graduates from more than 90 countries. This gives students a unique opportunity to meet people from different backgrounds and learn about other nations and cultures, and to establish friendships that last a lifetime. It also creates a worldwide networking system that gives our students an advantage throughout their lives.

Our small classes create an intimate atmosphere, which allows students to get to know each other and the staff. Our philosophy is that our students are our partners.

IDC Herzliya is one of the most prestigious universities in Israel. Employers seek IDC graduates because they come with practical tools and hit the ground running. IDC operates a Career Development Center that aims to prepare students and alumni for the job market, and to provide them with the tools to find suitable employment both before and after they graduate.

IDC Herzliya offers a large array of extracurricular activities: sports, debate club, Model UN, Israel advocacy, JLIC-RRIS Friday night dinners, shiurim, mincha club, choir, band, and much more.

The Raphael Recanati International School provides very special care for its students. We are the largest academic absorption center in the country. We are especially proud that we are home to more than 300 lone soldiers, who are currently studying here.

One-third of IDC Herzliya students are international, making us the most international university in Israel for full-degree students. Israeli students serve as counselors for first-year students in order to help them find their way around and get to know the system.

IDC Herzliya was ranked number one in student satisfaction for quality teaching for four consecutive years, in a nationwide survey conducted by Israel’s Council for Higher Education. We are the first non-government subsidized academic institution to grant doctoral degrees.

IDC Herzliya was ranked number one in student satisfaction for quality teaching for four consecutive years, in a nationwide survey conducted by Israel’s Council for Higher Education. We are the first non-government subsidized academic institution to grant doctoral degrees.
CAREER CENTER

The Career Center strives to prepare students to enter the workplace and to help them find employment opportunities, by providing counseling, placement, and informational services. It is tailored to meet the specific needs of the students and graduates of each of IDC Herzliya’s schools, according to the relevant market. These services include personal career counseling and assistance, as well as lectures and workshops on job-seeking strategies, LinkedIn, and interviews. In addition, the Career Center creates recruitment and networking opportunities such as job fairs, Coffee Chats, and employers meetings. The center also maintains an updated listing of hundreds of job openings in Israel for students and graduates.

www.idc.ac.il/career/eng

VISA & STATUS ASSISTANCE

Students are responsible for clarifying and establishing their status in Israel, and can turn to the Raphael Recanati International School staff for advice and assistance. Before commencing studies, all students must clarify their status and eligibility for a student visa (A-2), or Israeli citizenship, with the Israeli embassy or consulate in their country of origin. A student visa should be obtained in advance, in the student’s country of origin. International students who are children of an Israeli parent must settle all matters, such as deferment of military service, with the nearest Israeli embassy or consulate.

The Jewish Agency provides advice and assistance to students considering immigrating to Israel.
See: www.jewishagency.org/JewishAgency/English/Aliyah/
and for North America/UK: www.nbn.org.il

HEALTH INSURANCE

All IDC students are required to have comprehensive health insurance coverage throughout the period of their studies. Israeli residents, including new immigrants, receive national health insurance for a low monthly fee, in accordance with the country’s health insurance legislation. International students who are not covered by Israel’s national health insurance (bituach leumi) should purchase their own health insurance policy to cover their medical needs while in Israel, or purchase the UMS HAREL YEDIDIM insurance policy for international students, offered by IDC.

Our special arrangement with HAREL YEDIDIM insurance company provides comprehensive health coverage for $990 US* per academic year, which will be charged at the beginning of each year.

*Rates are subject to change according to insurance company rate fluctuations.
OF THE STUDENT POPULATION OF IDC HERZLIYA ARE INTERNATIONAL STUDENTS. RRIS IS THE LARGEST ACADEMIC ABSORPTION CENTER IN ISRAEL.
