

Dear IDC community members,

After having enjoyed the full return to campus and a normal life routine, we are again facing a reality that requires protecting public health.

As can be seen in the various public announcements, the government is promoting new emergency regulations. Instructions, specific to higher education institution, will be announced soon.

In concern to your health and in order to allow you to plan accordingly, we are updating you already now.

The new regulations will apply starting Tuesday, August 17th, 2021 and following them, the IDC shall return to a "green campus" policy.

If you do not hold a green pass (vaccinated or recovering from Corona) you will be required to present a negative corona test result from within 72 hours. According to the regulations, this will not apply to exams, and thus a student who does meet the above-mentioned conditions and needs to take an exam on campus (including Moed Bet exams) Will be permitted on campus for the duration of the exam. Upon entry you will have to present at the gate the SMS you have received with the exam information, including date, time and location (or the relevant information in your student information station).

Please note that in addition to the requirement to wear a mask in closed places, an additional regulation was added, requiring wearing a mask in outdoor gatherings of over 100 people.

For the sake of everyone's health, we urge you to follow the regulations issued by the Ministry of Health, including mandatory quarantine upon return from abroad.

We wish you good health and an enjoyable summer vacation, as we continue our effort to ensure that the upcoming school year will provide a fruitful academic experience!

Best,

Prof. Uriel Reichman
President and Founder

Prof. Rafi Melnick
