2022-2023
Reichman University was founded with the aim of nurturing future leaders. In just twenty-seven years, we have created a pioneering and innovative academic center. Our students are imbued with a commitment to excellence and original thinking. ‘The university of the future,’ as we see it, has to prepare its students for a constantly changing world by being able to innovate skillfully, to dare, and to initiate. We believe that the knowledge and tools acquired at Reichman University support personal and professional goal fulfillment and enable our graduates to tackle the challenges of our global reality.”

Prof. Uriel Reichman
Founding President and Chairman of the Academic Board, Reichman University
The Arison School of Business is offering a One-Year MBA program focusing on the management of fast-growth, competitive companies. The program combines courses in innovation and entrepreneurship with relevant practical experience. Students have opportunities to participate in internships at startup firms and well-known organizations. Alternatively, students can start their own venture under the guidance of Reichman University faculty and professionals from the industry.

Courses are taught by top Reichman University lecturers, and by leading academics and practitioners in their fields. The program’s goal is to provide students with managerial tools that will enable their integration into the business world in growing companies, and offer them opportunities to develop and promote their professional careers.

This MBA is suitable for students who possess a strong academic background and are interested in investing in a particularly intensive degree for a short period of time. The program is designed as a full-time MBA degree, and thus holding a part time job concurrently is not recommended.
The curriculum offers core courses in finance, accounting, marketing, strategy, and management - with an emphasis on innovation and entrepreneurship, as well as on the unique challenges of fast-growing companies. As an integral part of the curriculum, students will learn from existing startups and other companies, and from guest lecturers who are experts in their fields.

A student visa should be obtained in advance, in the student’s country of origin. All Reichman University students are required to have comprehensive health insurance coverage throughout the entire period of their studies. Israeli residents, including new immigrants, receive national health insurance for a low monthly fee, in accordance with the country’s health insurance legislation. International students who are not covered by Israel’s national health insurance (bituach leumi) should purchase their own health insurance policy to cover their medical needs while in Israel, or purchase the UMS HAREL YEDIDIM insurance policy for international students, offered by Reichman University.

Our special arrangement with HAREL YEDIDIM insurance company provides comprehensive health coverage for $1,600 USD* per academic year, which will be charged at the beginning of each year.

In order to have continuous coverage, the policy is automatically renewed from one academic year to the next, until the end of the program, unless the student notifies the school in writing that he/she wishes to cancel.

*Rates are subject to change according to insurance company rate fluctuations.

Deciding to get my One-Year MBA degree in Israel was a bold choice, but choosing to do it at Reichman University felt like the right one. The staff, professors, and fellow students made my transition and studying pleasant, challenging, and worthwhile. The gorgeous campus became my second home. I would definitely recommend the One-Year MBA program to anyone who is interested.
