## • Joey Low - Israel At Heart

Joey Low founded Israel At Heart in 2002 as a nonprofit organization whose single concern is the wellbeing of Israel. At Israel At Heart we wish to do everything we can to promote a better understanding of Israel and its people. We are not part of any Jewish organization, do not represent any government agency or political party and are, therefore, free to express ourselves in any way we wish. Over the years, Israel At Heart has initiated a number of programs intended to promote a better understanding of Israel and its people. In the past year, the organization has focused its energy and resources on defeating the government's deportation policy. Over the last 9 years, the organization has provided more than 40 full scholarships to young refugees who were looking to receive a higher education, both undergraduate and graduate studies. Since launching our programs, our students have graduated from top colleges with degrees in law, government studies, business, communication and psychology.
